ABOUT ME

Passionate **Blockchain Developer** with **2+ year of experience** in **Ethereum & Binance Smart Chain (EVM-based chains)** and **6+ months in Algorand**. Proficient in **smart contract development, DApps, and blockchain architecture**, leveraging technologies like **Algorand SDK, AlgoPy, and ARC4** to build secure and scalable solutions. Adept at optimizing blockchain systems with a strong focus on **performance, scalability, and security**. Experienced in collaborating with cross-functional teams to develop **innovative blockchain solutions** that align with technical and business objectives.

WORK EXPERIENCE

 **OCTALOOP TECHNOLOGIES** – ISLAMABAD, PAKISTAN

BLOCKCHAIN ENGINEER – 03/12/2024 – 28/04/2025

Responsibilities:

- Developed and deployed secure staking and farming contracts on Algorand.
- Built a decentralized NFT marketplace with escrow and auction features.
- Integrated ARC4 standards for transparent NFT auctions.
- Optimized smart contracts for gas efficiency and low transaction costs.
- Ensured secure fund flows using atomic transactions and on-chain validation.

Key Projects:

- **Staking & Farming System:** Yield-generating smart contracts with asset locking and reward distribution.
- **NFT Marketplace:** Decentralized platform with auctions, bid tracking, and automated settlements.

Tech Stack:

- **Blockchain:** Algorand (PyTeal, Algopy)
- **Smart Contracts:** TEAL, ARC4
- **Frontend/Backend:** React.js, Next.js, Node.js, Express.js
- **Database:** MongoDB
- **Wallets:** Algorand Wallet, MyAlgo

 **TELGATES INC.** – LAHORE, PAKISTAN

BLOCKCHAIN ENGINEER – 05/08/2023 – 10/11/2024

Responsibilities:

- Developed EVM smart contracts for DeFi, staking, vesting, and token swaps.
- Built NFT marketplaces with on-chain royalties and multi-currency support.
- Performed smart contract audits and enforced security best practices.
- Integrated Chainlink oracles and decentralized governance frameworks.
- Used Hardhat, Foundry, and Truffle for development and deployment.
- Deployed contracts on Ethereum, BSC, Polygon, and Arbitrum.
- Implemented cross-chain bridges and interoperable token transfers.

Key Projects:

- **ImpactoMoney Charity:** NFT-based donation system with traceable stablecoin vouchers.
- **NFT Marketplace:** Decentralized platform with minting, bidding, and multi-chain support.
- **Token Vesting:** Structured token unlocks on Ethereum & Algorand.
- **Staking Protocol:** Auto-compounding and penalty-based withdrawal contracts.
- **Token Launchpad:** ICO contract with whitelist and vesting mechanisms.

Tech Stack:

- **Languages:** Solidity, Python (Algopy/PyTeal)
- **Platforms:** Ethereum, Algorand, BSC, Polygon, Arbitrum
- **Tools:** Hardhat, Foundry, Truffle
- **Core Features:** Staking, Vesting, NFT Marketplaces, Token Swaps, DAOs
- **Security:** OpenZeppelin, Slither

- **Interoperability:** Cross-chain bridges, Multi-token support
- **Infrastructure:** Chainlink, The Graph, IPFS

Department Blockchain Engineering | **website:** <https://telgates.net>

🏢 **AAM TECH HUB** – MULTAN, PAKISTAN

BLOCKCHAIN ENGINEER – 07/05/2025 – CURRENT

Responsibilities:

- Developed smart contract logic for AAM Token payments within the AAM ecosystem.
- Worked on a custodial wallet system to securely manage user assets on-chain.
- Contributed to wallet-side asset handling, including on-chain transaction signing and storage.
- Designed token transaction flow and implemented core contract-based fund management.
- Participated in the architecture of AAM Token integration with a centralized exchange.
- Ensured secure handling of user funds and transactions using blockchain best practices.

Key Projects:

- **AAM Token Payments** – On-chain payment logic for token-based purchases.
- **AAM Custodial Wallet** – Asset handling and transaction flow on blockchain.
- **AAM Exchange (Ongoing)** – Smart contract logic and fund management integration.

Tech Stack:

- **Blockchain:** Ethereum, BSC, Polygon (ERC-20)
- **Smart Contracts:** Solidity
- **Tools:** Hardhat, Remix, Ethers.js (for testing only)
- **Security:** On-chain fund management, transaction validation, role-based permissions

● **EDUCATION AND TRAINING**

01/09/2020 – 04/09/2024 Vehari, Pakistan

BACHELORS IN SOFTWARE ENGINEERING COMSATS University Islamabad Vehari Campus., 61100 Vehari (Pakistan)

01/07/2018 – 22/09/2020 Vehari, Pakistan

FSC (PRE-ENGINEERING) Govt. Post Graduate College Vehari., 61100 Vehari (Pakistan)

01/03/2016 – 21/07/2018 Vehari, Pakistan

MATRICULATION(SCIENCE) Govt. Model Higher Secondary School Vehari., 61100 Vehari (Pakistan)

05/2024 – 06/2024

BECOME A SOFTWARE TESTER Udemy

08/2023 – 11/2023

BLOCKCHAIN SPECIALIZATION coursera

07/01/2023 – 10/03/2023

BLOCKCHAIN ENGINEER Althash University , Chicago

Website <https://www.althash.university>

● **COMMUNICATION AND INTERPERSONAL SKILLS**

Soft Skills

- Multitasking
- Problem-Solving
- Teamwork
- Attention to Detail
- Time Management
- Adaptability
